Russia Demands U.N. Restrict Atomic Bomb

Would Set Up Atom Energy Controls

Paris, Oct. 2.—(AP)—Russia changed signals: unexpectedly today and demanded the United Nations ban the atomic bomb and set up atomic energy controls at the same time.

The Soviet Union still insisted however upon veto over the control machinery.

Western power delegates saw no compromise in the surprise move nor any break in the deadlock over atomic energy control. They said they were going straight ahead with plans to demand a vote of confidence in their stand from the U.N. general assembly.

Warren R. Austin, U. S. delegate, told newsmen the Soviet proposal was a typical "oriental maneuver." He said the American delegation saw no assurance Russia is ready to accept the central plan of the U. N. Atomic Energy Commission, "the only effective system which would insure the harnessing of atomic energy in the service of mankind."

Andrei Vishinsky, Soviet deputy foreign minister, put the Soviet resolution before the 58-nation political committee of the assembly at the end of his second blast in two days at the western powers.

Once more Vishinsky hit at President Truman, Gov. Thomas E. Dewey, and David E. Lilienthal, chairman of the U. S. Atomic Energy Commission.

This came when he charged former Premier Paul Ramadier of France with attempting to justify a course "expounded by his American inspirers, such as Messrs. Dewey, Truman, Lilienthal and others."

Vishinsky's resolution called upon the assembly to recommend to the Security Council and to the Atomic Energy Commission that they continue their work toward finding an atomic solution.

It called for the council and the commission to draw up one treaty banning atomic weapons and another on the establishment of effective international control over atomic energy.

These treaties, the resolution specified, should be drawn up on a view that both are to be signed and put into force simultaneously.

The abruptness of the Soviet shift was dramatized by the fact that only yesterday Vishinsky voiced flat opposition to international control of production of atomic raw materials as proposed by the United States and supported by all save the Soviet bloc.

The Soviet resolution, however, would put the assembly on record as saying that the work of the Security Council and the Atomic Energy Commission so far had not yielded positive results.

This is directly counter to the proposal by Gen. A. G. L. McNaughton of Canada for the assembly to approve majority reports of the commission.

'Satira' Schmidt Free To Leave Prison Wednesday

Havana, Oct. 2.—(AP)—The decree pardoning Patricia (Satira) Schmidt, the dancer who shot and killed her married lover on a yacht in Havana harbor, was published in the official gazette today.

This means she will be free to leave prison at midnight Wednesday.

President Grau San Martin pardoned the 23-year-old Toledo (O.) girl Thursday night but the formalities of publication have held up her release from prison.

Patricia admitted she shot John Lester Mee, 33, of Chicago after a fight aboard his yacht April 8, 1947. She pleaded self-defense.

CHICAGO HOLDUP
Chicago, Oct. 2.—(AP)—Two gunmen, their faces masked with brown stockings, held up an official of the C. A. Roberts Company and fled with \$3,250 today.

C. S. Kline, 39, (1545 Glenlake avenue), controller of the tube manufacturing firm, told police he was held up as he was about to enter the company's offices at 20 South Aberdeen street. He was returning from the bank with the company's weekly payroll.

Bulletin

Detroit, Oct. 2.—(AP)—Fire raged out of control tonight on an automobile-leaded Great Lakes freighter in the Detroit river.

All three decks of the ship, the T. J. McCarthy, were reported blazing. The boat tied up at a dock, was fully loaded with 300 new cars destined for Buffalo.

Expect Breach In CIO Union After Election

Washington, Oct. 2.—(AP)—The CIO is heading toward an almost certain showdown between its warring left and right wing factions after the presidential elections.

Beset by internal friction over charges that some of its union leaders have communist leanings, the CIO will meet in convention in Portland, Ore., Nov. 22.

The potential start of a breach is scheduled for Oct. 14, when a three-man CIO committee opens an inquiry here into the conduct of the leadership of the Greater New York City CIO Council.

The investigation was demanded by anti-communist leaders including Joseph Curran of the National Maritime Union and Michael Quill of transport workers. Both of them once worked in their own unions with factions accused of communist sympathy.

The committee will report its findings to the CIO executive board at Portland November 17. Any disciplinary action which might be taken by the board or by CIO President Philip Murray as a result of that report more than likely would be appealed to the convention.

So the basis for a showdown already has been laid.

These include CIO support of the European recovery program—opposed by the communists—and further participation in the World Federation of Trade Unions. Truman At White House, Has 'Just Begun To Fight'

Washington, Oct. 2.—(AP)—President Truman arrived home today for a four day intermission in the election campaign he called "a real crusade" in which "I've just begun to fight."

He returned to the White House for an anticipated brushing up on a tense international situation before setting out again next Wednesday in quest of votes in the presidential election just a month away.

He thanked the crowd which had gathered in front of the station to greet him and, standing in an open White House car, told them: "The people are beginning to wake up to the fact that this is a real crusade. It's the people against the special interests. I'm not going to pull any punches. I've just begun to fight."

Police made no estimate of the number of people who saw the chief executive at the station or on the route to the executive mansion.

Cabinet officers and several score other persons shook hands with Mr. Truman on the rear platform of his train; then Mrs. Truman and Margaret joined him to leave to the crowd.

At the White House, the president begged off shaking any more hands as the executive staff turned out to greet him with a loud shout.

"I appreciate this welcome home," he said. "And if I hadn't just shaken hands with 30,000 to 40,000 people I'd shake your hands too."

Nuclear Physicist Expresses Doubt Russ Has A-Bomb

Champaign, Ill., Oct. 2.—(AP)—A University of Illinois specialist in nuclear physics said today he doubts that the Russians have an atomic bomb.

Dr. Louis N. Ridenour, nuclear physicist and dean of the university's graduate school, said "they undoubtedly have a nuclear reactor that is working. I doubt if they have developed the facilities for producing materials on a large enough scale for atomic bomb output."

Dr. Ridenour addressed the second annual public affairs forum of the Illinois Junior Chamber of Commerce.

Dr. Ridenour told the group: "We have something a spy can't give away. American engineering and industrial skill."

"We are going to have to live with our atomic problem. It is too late to put the genie back in the bottle."

"Because of the lack of Russian cooperation, it seems unlikely that world control of atomic energy on our terms can be secured."

Barkley Urges Wise, Liberal Farm Program

Mankato, Minn., Oct. 2.—(AP)—Senator Allen W. Barkley urged Minnesota farmers tonight to elect Hubert Humphrey to the Senate to help the Democrats in their fight for a "wise and liberal farm program."

Humphrey, mayor of Minneapolis, is the Democratic senatorial nominee opposing incumbent Republican Joseph H. Ball.

In the first major grain belt speech of his airborne campaign, the Democratic vice-presidential nominee attacked the Republican farm record and said the GOP is asking farmers to "buy a horse without being allowed to look at its teeth."

Criticizing Gov. Thomas E. Dewey's utterances on agriculture, Barkley said "the total intelligence I have been able to receive from Gov. Dewey's farm policies is that he is for the farmers."

If the Republicans win in November, Barkley said, "the private utility interests and the great grain speculators will have a major voice in establishing Republican farm programs."

20 Teen-Agers Figure In Wild, Immoral Parties

Des Moines, Oct. 2.—(AP)—A 10 day series of teen-age wild parties in a luxurious country cabin near here was blamed on "parental delinquency" today by Sheriff Howard C. Reppert.

Six youths were in jail as the result of the drinking and love-making parties by a group of more than 30 boys and girls who broke into the sheriff's own two-story modern cabin and used it as a rendezvous.

The case was broken after Reppert opened an investigation when he found his unoccupied cabin in disorder on a visit to it.

"In most of the cases," Reppert said, "the parents were to blame. The parties usually started at midnight or later and sometimes lasted until 5 a.m. The parents should have been a little more curious where their children were so late."

More than 20 of the teen-agers, Reppert said, had admitted engaging in immoral acts. One 15-year-old girl told deputy sheriffs Bert Long and George House that she had been intimate 15 times with seven boys in one evening.

Reppert said this 15-year-old seemed quite unconcerned as she related what she did at the beer and liquor parties. She laughed as she told about it, he said.

In talking with the parents of the boys and girls, the sheriff said, he found several parents who didn't seem very interested or concerned.

"One mother told me it was impossible for her to work for a living and properly supervise her 15-year-old daughter," Reppert said.

Five youths, ranging in age from 15 to 20, were given 30-day jail terms on charges of contributing to the delinquency of minor girls. The 15-year-old boy is married.

A sixth youth, 18 years old, was in jail after failing to post bond on a charge of statutory rape filed by the mother of a 15-year-old girl. He pleaded innocent when arraigned today.

Red Purge In East Java May Break Dutch Deadlock

Batavia, Java, Oct. 2.—(AP)—The Indonesian Republic's initial success in efforts to wipe out the "Soviet state" in East Java may be the jolt that will break the three-month political deadlock with the Dutch.

Informal sources predict major diplomatic moves in the next few weeks in efforts to solve the stalemate between Indonesian nationalists and the Dutch.

While armed clashes around Madoen, the communist stronghold, resulted in the Moscow-trained Musso's red battalions being scattered, the diplomatic props were being moved behind a curtain of secrecy.

It was generally believed that Uncle Sam was the stage manager, though officials deny this.

Last week, it looked as though the lightning revolt led by Moscow-trained Musso might succeed with a coup that would smother the moderate republican government of President Soekarno and Premier Mohamed Hatta.

If that happened, it was widely believed the forces of the Royal Dutch army would sweep in to restore order.

It is believed, however, that the Dutch realize the long-term danger of restoring to force which might cause both nationalists and communists to go underground and resort to guerrilla warfare in the jungle which would make outlying areas unsafe for white men for years.

The republic's victories over the communists, however, have eased the tension somewhat. There is talk now that the Hatta government deserves some sort of recognition for its effective handling of the communist rebellion.

CIO Picket Leader Found Guilty Of Riot Conspiracy

Waterloo, Ia., Oct. 2.—(AP)—A district court jury today found Wilbert Warren, 27-year-old CIO-UPWA picket captain, guilty of riot conspiracy charges in connection with the Rath Packing company strike and riot last spring.

The jury returned its verdict after deliberating continuously for 21 hours.

Iowa law provides a sentence of up to three years on the charge of riot conspiracy.

Warren was the first to be tried of 11 persons indicted on riot conspiracy charges in connection with violence last May 19 in which a striker was killed. The Iowa national guard was called out at that time.

The defendants still to be tried include local, district and international officers of the CIO-Packaging Workers Union. Attorneys said earlier the Warren trial would set the pattern for the remaining cases.

Warren, a war veteran who flew 50 missions over Europe as an aerial gunner, was charged with violating court injunctions and preventing non-striking workers from returning to their jobs by force or intimidation.

Air Force Readies To Train Illinois Reserve Officers

Chanute Air Base, Ill., Oct. 2.—(AP)—The air force is preparing mobilization training assignments for 154 reserve officers who live in Central Illinois and Eastern Iowa.

Brig. Gen. Fay R. Upthegrove, commander at Chanute Air Base where the assignments will be made, said the program is a move to "revitalize" air reserve activities in this area.

Officers selected for the mobilization training will come from the Champaign-Urbana, Danville, Bloomington, Decatur, Springfield, Peoria, Kankakee, and Mattoon, Ill., and the Burlington, Ia., areas, he said.

Flying and non-flying officers ranking from lieutenant to colonel will be assigned to definite jobs with specific units at Chanute. They would report directly to these jobs in the event of mobilization.

The officer trainees will be eligible for two weeks' active duty each year in their assigned jobs. They may also take "on the job" training in their assignments and receive 24 to 48 days' pay a year for this training.

SMOTHERS IN SAND BIN
Decatur, Ill., Oct. 2.—(AP)—Charles Reutherford, 50, Moveaux, was smothered today while working in a sand bin at the Decatur Sand and Gravel Company. Fellow workers said his body was recovered in 15 minutes but efforts to revive him were futile.

Housewives Hold 'Field Day' As Food Goes At Cost

Mt. Vernon, Ill., Oct. 2.—(AP)—Housewives had a field day this afternoon as the branch store of the Kroger Grocery and Baking company sold perishable vegetables and meats at cost price or less.

Employees of the company said the store had orders to close indefinitely tonight as a result of a truck drivers' strike which has tied up shipments from the company distribution point at Carbondale, Ill.

Oranges sold for 10 cents a dozen; grapefruit three for 10 cents and Idaho potatoes 20 pounds for 50 cents. Oleomargarine sold from 25 to 37 cents a pound, depending on brand.

Curtis Mac Dougal Blasts President, Dewey In Speech

Chicago, Oct. 2.—(AP)—Curtis Mac Dougal said tonight that if Thomas E. Dewey is elected president, the only change in Washington will be "the substitution of cheap New York politicians for cheap politicians from western Missouri."

MacDougal, Progressive party candidate for U. S. senator, said that "for those not in agreement with the present bi-partisan foreign policy, a vote for Truman or Dewey is a wasted vote."

Norwegian Flying Boat Capsizes, Sinks, 22 Killed

Oslo, Norway, Oct. 2.—(AP)—A Norwegian flying boat capsized and sank near Trondheim today, apparently killing 22 of the 48 persons aboard.

Earl Bertrand Russell, 76, the British philosopher, was saved soon after he had been plunged into the water. He was enroute to Trondheim to lecture.

The Norwegian airlines said three were killed, 19 are missing and 26 were saved. As there was no response to radio calls for missing survivors to report, it now appears certain all the missing drowned. Three of them were babies.

The fate of the missing probably will not be determined finally until the Sandringham flying boat is brought to the surface. Darkness and rough weather forced rescuers to abandon work late tonight.

A board of inquiry is trying to find the cause of the mishap.

The four-engine plane sank swiftly while trying to land in heavy wind and a rough sea about 700 yards off Hommelvik, a village east of Trondheim.

All the victims were Norwegian citizens, with the possible exception of Norwegian-born Mrs. Lisbeth Stroom, who may be a naturalized citizen of the United States.

NEW YORK TIMES SWITCHES TO DEWEY
New York, Oct. 2.—(AP)—The New York Times tonight announced its support of Gov. Thomas E. Dewey for president.

The Times opposed Dewey in the 1944 presidential campaign against Franklin D. Roosevelt.

In an editorial the newspaper said its support of Dewey this year was due principally to a "marked change" in the New York governor's "understanding and authority" in the field of international relations.

Blue roses were grown by Luther Burbank.

Dewey Invades President's Home State, Blasts Demos

Enroute east with Dewey, Oct. 2 administration we can't handle the tasks ahead."

The GOP candidate's pledge to pursue a "firm, consistent" foreign policy was in line with the theme he has been pounding at across the continent and back.

"We can and will bring to this government of ours a new sense of vigor and competence, a foreign policy that doesn't wobble from side to side so you have to read the newspapers in the morning to find out where we stand in this country," Dewey said.

He added he proposes to build "firmly and strongly for the peace of the world."

In Sedalia, Mo., Dewey told a crowd estimated at 5,000 persons by Patrolman C. R. Ellis:

"For a state which used to be called Democratic, I've never found so many well Republican leaders in my life."

Dewey said he does not hold "with people who go around the country trying to set one group against another and class against class."

There was no mention of Mr. Truman by name either at Sedalia or Warrensburg.

WHY A COMMUNITY CHEST?

Many in this city have handicaps and misfortunes that makes it necessary for the more fortunate to help them. That, in a few words, explains why we have a Community Chest and why an annual campaign is conducted to keep it going. The Chest is made up of many different agencies, each of which would have to have a separate campaign if it were not for the Chest. In this way one contribution is spread to aid many good causes—to feed those who are hungry and cannot work; to provide shelter for the homeless; to help boys and girls to grow up to be good citizens.

The Morgan County Community Chest is the fund raising agency which supports the Y.M.C.A., Boy Scouts, Girl Scouts, Salvation Army and the Illinois Children's Home and Aid Society.

The Morgan County Community Chest has included the USO in this year's quota. The USO is a natural ally of our greatly expanded military establishment; it will be "reactivated" to stand at the side of the new peacetime forces, with the same kind of friendly services, recreation, the hometown touch, that distinguished it during World War II.

The Chest campaign can be fittingly described as the Golden Rule in action.

Tuesday Last Day To Register For Voting; Polls Will Be Open

Registration day will be held at the 43 polling places in Jacksonville and Morgan county next Tuesday, Oct. 5. That will be the last chance for voters who are not now properly registered to straighten out their status, thus qualifying them to vote in the presidential, state and county election Tuesday, Nov. 2.

All polling places will be open Tuesday from 6 a. m. until 9 p. m. Each will be in charge of a registrar and two deputies.

Registration work has been in progress at the office of County Clerk Douglas for several weeks. Monday, Oct. 4, will be the last day though it may have been in the for registering at his office, and Tuesday at the polls will be the final day.

Voters who have changed residence since the last election, even though it may have been in the same precinct; voters who have come of age recently, or who changed their names by marriage, must be

properly registered to vote in November. Registration lists are expected to reach an all time high because of wide interest in the approaching election when many high offices will be filled. More than 21,000 persons are expected to be eligible for ballots.

Permanent registration files are maintained at the court house. The poll books will be sent to the various precincts Tuesday for use of the registrars.

Officials of both political parties have been active in urging registration. Many inquiries have been received at the clerk's office, resulting in changes by which the files were brought up to date.

Special Services At Woodson To End Sunday Night

The topic of the sermon to be given by the evangelist, the Rev. Roy S. Hulian of Jacksonville, will be "From Vision to Venture."

Following the sermon there will be a baptismal service.

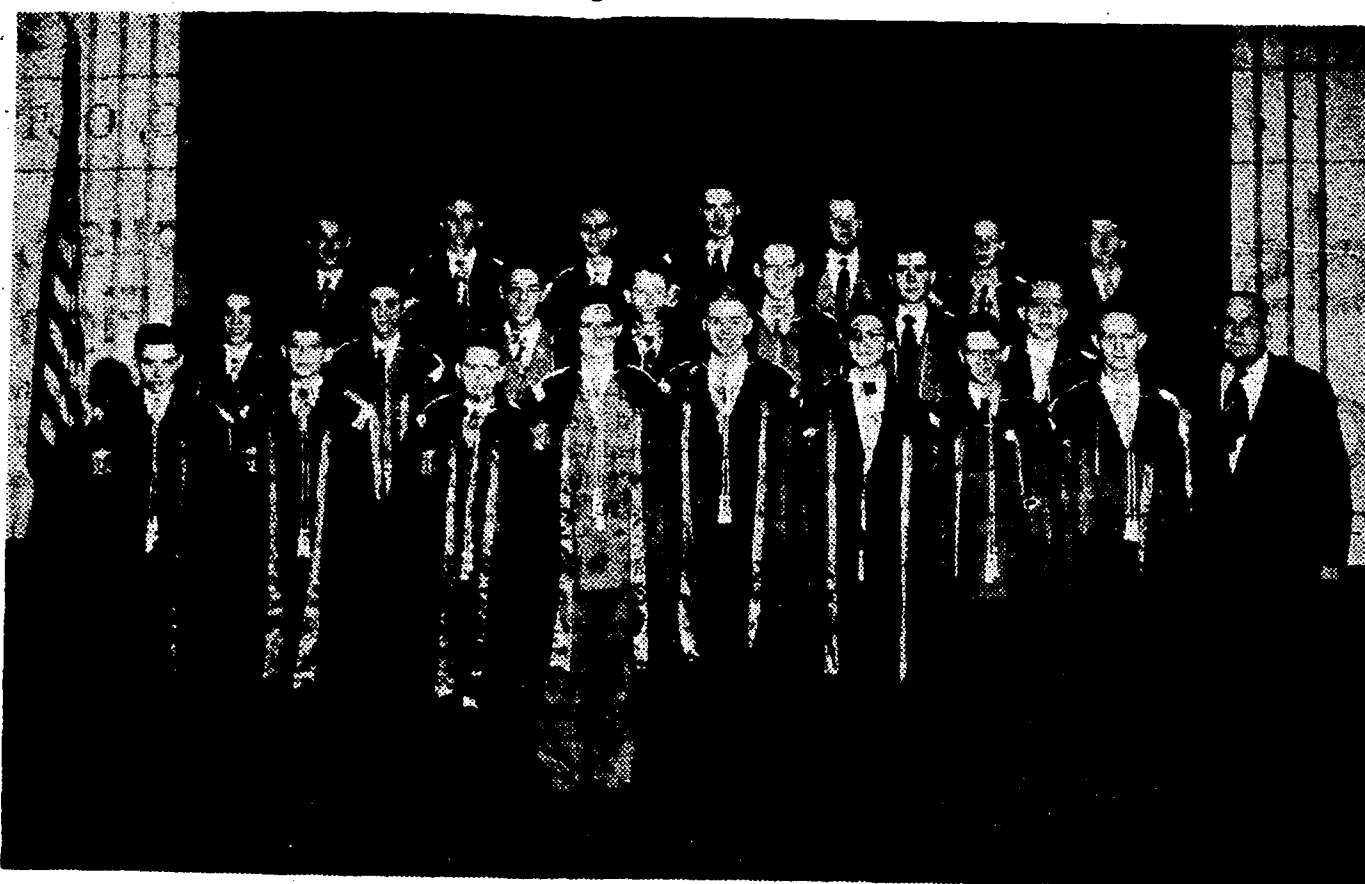

Rally day will be observed in the Sunday school at the morning session. World Wide communion will be observed at the morning worship service, at which the pastor, the Rev. A. D. Hermann, will speak on "Drawing All Men." Vocal selections will be presented by the Misses Marilyn Crain and Betty Zieche.

Above POLITICS

As you listen to political activity during this election year, let us remind you of a non-political organization—your telephone company.

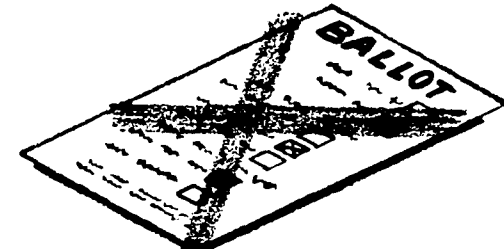

Your telephone company is more than a good citizen without politics—your telephone company is a public servant as public minded as your elected representatives permit it to be.

Let us recall to your attention—

First, telephone usage is taxed far more than most other daily necessities. Witness, such taxes as the 15% excise tax on local exchange service, the 15% and 25% excise tax on toll calls, the 3% state utility tax, and other special taxes, and.

Secondly, the telephone rates are government regulated, which means in these times of high prices, expenses often go up faster than revenues. Although our rates were adjusted September 1, 1948, in many exchanges it was the only major rate change in over 20 years. We run our business the best we know how under government regulated rates.

So, your telephone company is above politics, but much affected by political actions—when it comes to taxes and telephone rates.

New Local Residents Organize Social Club At Tea Wednesday

The newest residents of Jacksonville were introduced to each other at a complimentary tea given by the Dunlap Hotel, yesterday.

This was the first meeting of the Newcomers Club, a social organization sponsored by the Welcome Wagon Hostesses, Mrs. Florence Clark and Mrs. Marie Cannon, and the Welcome Wagon merchants of Jacksonville.

The purpose of the club shall be to develop fellowship among new residents and help them by starting them on a new social life in this, their community.

The activities will include civic and Red Cross projects. Groups will be formed to meet outside the regular monthly meeting—such as those for Book Reviews, Antiques, Music, Sewing, Bridge and Breakfast clubs.

The following temporary officers were appointed at this meeting: President, Mrs. Ray Baker; Vice President, Mrs. R. G. Briggs; Secretary, Mrs. John Patterson; Treasurer, Mrs. C. W. Elliott; Social chairman, Mrs. J. Dale Kincannon. A regular election will take place in November.

If any newcomer has been overlooked, the hostesses would like to

know about them. Watch your neighborhood and see that any newcomers is reported to the hostesses so that they may be made welcome in Jacksonville.

Welcome Wagon Service Based On Past Traditions

Welcome Wagon Service was originated in 1926 by Thomas W. Briggs, a newspaperman of Memphis, Tenn., who adapted a custom of pioneer days to present day conditions. A student of American history, Mr. Briggs was stirred by the romantic tales of rugged men who plazed their trails to a new land across the western plains. As the covered wagons of those pioneers lumbered toward the frontier home-steaders from the scattered settlements along the way met them in "Welcome Wagons" with food and water to refresh the travelers at the end of their long ordeal.

That gracious tradition lives on today, in Welcome Wagon Service. A modern version of "old-fashioned hospitality" is extended to the families of a community at the crucial moments of their lives. Daily, 1948, through the U. S. and Canada—in more than 600 towns and cities—over 2,000 Welcome Wagon hostesses carried the good wishes of the townspeople to 500,000 families—to newcomers, to young women about to be married, to the mothers of new babies, and those moving from one home to another within the community.

The Welcome Wagon hostess knows her town, and wherever she goes, she carries word of its outstanding features—its libraries, churches, newspapers, parks, museums, youth groups, welfare associations, banks, shops, restaurants, schools, and services.

Montgomery was represented in court by Attorney Norbert L. Hutchins.

The state department was represented by W. Harmon Myers, an investigator who was instrumental in bringing the charges.

CAN CAUSE
THIS...

The over-loading of electrical circuits is one of the major causes of fire. A wire can carry just so much electricity. Do not over-load an electrical outlet which will in turn cause too great of a load on the circuit. A symptom of overloading is a fuse blowing. When this happens do not replace with a penny or larger size fuse. If this happens often call your Electrical Contractor... It may save calling the Fire Department.

THE LOVES OF CARMEN
 By SOPHIE KERR
 Copyright, 1948, NEA Service, INC.
 Serialized... of screenplay from a novel by Prosper Merimee
 THE STORY: Don Jose, young officer in a fashionable Spanish regiment, has just come to Seville from the countryside of Navarre. On his first day in the city, a gorgeous gypsy girl flirts with him, then disappears. Some days later he is on duty in the square with his friend, Andres, when girls from the nearby cigar factory swarm out at closing time. Among them is the gypsy. Andres greets her warmly as Carmen, but his glance is all for Jose. Even as she makes a date with Andres, Jose hears a commotion down the street. Carmen has gotten into a brawl with another woman and knives her. Don Jose is ordered to take Carmen prisoner. She is led away, struggling, by two soldiers. She appeals loudly to Jose, who tries not to pay any attention. Suddenly she shrieks that one of the soldiers has plucked her hair. He looked at her again, his eyes narrowed. This time he did not glance away so quickly. She slanted her eyes at him provocatively. "Remember? Eight o'clock tonight at Lillas Pastia's?" His face set as though he had already thought of what tonight might have meant to him. She moved closer. "How can we be together if I'm in a dirty prison cell?" Don Jose stumbled a little, as the insinuating words went on. "It would be so easy. I run very fast. You should see me run."
 She stopped abruptly then and Don Jose stopped, too. She looked up into his face, laughed suddenly, pushed him violently and ran like the wind. Don Jose felt elaborately blocking the way of the other soldiers with his sword and his legs.
 Carmen had gone flying off down the alley. She was almost out of sight by the time the soldiers were untangled. They started to run after her, but Don Jose called them back. "I think I have hurt my ankle. Help me up."
 They hesitated, then stopped, for this was an order. Carmen was gone as they helped Don Jose to his feet. They looked at each other knowingly because he avoided their eyes.
 THE colonel bit into a cigar and lighted it. He stared coldly and impersonally at Don Jose. "You have sacrificed months of good behavior. You had a bright future in the Dragons. I advise you to avoid this gypsy," the colonel said.
 Don Jose maintained a stiff-necked, bitter silence, staring at the wall behind the colonel.
 "It is true she is an interesting type," the colonel went on. "But for a young man who takes his future seriously, a girl like that spells ruin. For an older man, who has nothing to lose and time for a little foolish indulgence, it is another matter—perhaps." The colonel took a deep pull on the black cigar and turned back to the business at hand. "Remember what I have told you," he said curtly. "You will take extra guard duty and be confined to barracks for 30 days."
 DON JOSE marched in the hottest sun and the wettest rain for 30 days with a pack on his back, carrying full equipment and a rifle, and it seemed to him that every soldier on the post and every cigar girl in the factory pelted him ten times daily with broad jokes about Carmen's escape.
 Marching in the hot sun, as the pack grew heavier on his back, resentment against her choked up his throat as he tried to imagine what she could be doing in freedom. This resentment was a strange new emotion to him for it bordered on hatred, and his reason told him that if he was to hate he could only hate himself because it had been of his own will that Carmen had escaped. This caused nothing for him.
 He imagined her in Andres' arms. He remembered the bold invitation in her eyes as she had sauntered out of the cigar factory and onto the square. She must attract many men. Or, perhaps, in a foolish, suffocating wave of delight that lifted his heart to a sudden pounding beat, she would be waiting for him, remembering the promise she made to him.

Coroner Juries Return 'Accidental' Verdicts In Air Crash Deaths

Inquests into the deaths of Ronald Russell Hoffman of this city and Paul Keenan of Alexander, who were killed in an airplane accident late Thursday night, were held Saturday afternoon by Coroner C. S. Young. Both juries found that death was accidental.

The inquiry into the death of Ronald Hoffman was held at the Morgan county court house while that of Keenan was held at the Williamson Funeral Home.

Fred W. Wharton, manager of the Jacksonville Airport was the first witness to testify at the Hoffman inquest.

Wharton testified that both Hoffman and Keenan were licensed pilots. He said that Hoffman "learned to fly at Danville, Ill., and had been employed as mechanic at the local airport since August, 1947. He stated that Hoffman was a regular pilot and flew often. He had never damaged a plane while at the local airport, Mr. Wharton said.

Plane In A Shape

Mr. Wharton said that the plane in which the two men crashed to their deaths was traded for the day before the accident. The airport manager said the engine was new and had only 350 hours. The plane itself had 1,000 hours which meant that it was practically new.

Mr. Wharton said he was out of the city when the accident occurred. He was notified of the tragedy at Blytheville, Ark., and immediately returned to this city.

He said that the flyers had no authority to fly the plane, and it had been the rule that no flying would be done at the local airport at night.

Mr. Wharton, in answer to a question by one of the jurors, said that there was no evidence that either of the men had been drinking.

Sets Time At 11:15 P.M.

Mrs. Amy Dora Paul of Jacksonville, Rural Route 2, who resides near

the airport said that she was awakened by the noise of an airplane motor about 11:15 o'clock Thursday night. She said the airplane apparently was flying very low and she thought "it was coming through the roof of our house."

The witness said she heard a slight crash and called her daughter, Miss Frances Paul. They went to the door but could see nothing of the plane. A short time later, Mrs. Paul said, Herb Moore, instructor at the airport came to the Paul house accompanied by sheriff forces and members of the Jacksonville Police Department. The crashed plane was found within a short time, she said.

Airport Employee Testifies

Billy Edward Hart, 301 East Michigan ave., who is employed at the airport, testified that he was working in the shop at the airport on Thursday night when the two men took off.

He said the two men came into the shop and that Hoffman said to Keenan "Let's go for a ride." Hart said that Keenan answered, "O.K. Let's go." Hart said he thought that the two flyers were just "joking."

He said that Hoffman was a good pilot.

Hart said that generally planes do not go up at night from the Jacksonville Airport.

The witness said that around 11 p.m., two boys came to the airport and said that they had heard a plane flying low and that the engine was missing. They said they thought they heard it crash.

Hart said he went immediately to notify Herb Moore.

In reply to a question, Hart said that both men knew it was against regulations to take a plane up at night. He said that the plane was in good condition.

Replying to another question from the jurors, Hart said that both men were sober when they took off.

Brother Takes Stand

The final witness was George Hoffman of Danville, brother of Ronald. He said that his brother would have been 20 years old next January and that he received his flight training at Danville.

A deposition from T. O. Hardesty was read to the jury.

The jury then returned the following verdict:

"In the matter of the inquisition on the body of Ronald Russell Hoffman, deceased, held at the Morgan County Court House, on the 2nd day of October, A.D. 1948, we, the undersigned jurors, sworn to inquire of the death of Ronald Russell Hoffman, on oath do find that he came to his death by fractures at the base of the skull and concussion of the brain. Contributory cause, an airplane accidentally crashing into a cornfield south of Jacksonville on Thursday night at 11:15 o'clock. The plane owned by Jacksonville Airport.

The jurors were A. P. Hutson, foreman; Samuel DeFries, Jesse W. Hankins, Mrs. Fletcher J. Blackburn, Hazel C. Wilson and Edna Wilson. Mrs. Naomi Strommatt was the stenographer.

The inquest into the death of Paul Keenan was held at the Williamson funeral home at 2:30 o'clock.

Practically the same witnesses testified at this inquiry. Herb Moore, instructor at the airport and William F. Keenan of Alexander, brother of the dead flyer were additional witnesses.

A deposition from Dr. Hardesty was read to the jurors.

The verdict in the Keenan case was similar to that in the Hoffman inquest.

Members of the Keenan jury were Mrs. Elsie Bieber, foreman; Walter Lacey, Margaret Mann, Mary Ellen Williams, G. Ellis Pettifish and Chris Horner.

Chief Outlines Ways To Guard Against Fire

Fire Chief Charles Lonergan said Saturday in announcing the fire department's cooperation with other civic groups that "by using simple precautionary methods many fires could be eliminated."

The fire chief, discussing replacement costs, stated that even in small fires where the flames are able to confine the flames to one room, it costs property owners two to three times the amount of money to remove the burned-out areas as it did six years ago.

Chief Lonergan particularly emphasized several points:

Rubbish fires are causing a great deal of damage in the city. If people would remove the rubbish from their cellars, attics and closets, fire

losses would come down and many alarms would be eliminated.

Buildings which are classified as conflagration hazards should be protected by automatic sprinklers. Such installations will pay for themselves out of savings in insurance premiums and as a result conflagration areas will be eliminated.

Basement fires are the hardest fires to fight. Firemen have difficulty fighting their way in and often do not know what the conditions will be when they reach the basement. Since a large percentage of all business fires originate in basements, if these also were protected by automatic sprinklers, the country's nation wide \$700,000,000 fire losses would be reduced by at least \$200,000,000.

The chief particularly emphasized the large number of fires which are caused from carelessness in the use of matches and smoking, which indicates that matches should be kept where small children cannot reach them. A liberal supply of ash trays throughout the house would reduce fires, the chief said, and he particularly emphasized the point that, if you value your life, "do not smoke in bed."

Joy Boyd Funeral Rites In Virginia Monday Afternoon

Virginia—Funeral services for Joy Boyd, Virginia high school youth who was killed in an automobile wreck near Little Indian junction late Friday night, will be held at 2 p.m. Monday at the Virginia Baptist church.

The pastor, the Rev. J. W. Acree, will officiate and burial will be in Walnut Ridge cemetery.

Little Indian junction is three miles south of Virginia.

Freshman Class

Boyd, a freshman at Virginia high school, was driving a Model A Ford sedan at the time of the one-car wreck.

He was pinned beneath the vehicle, which had rolled over, and his body could not be moved until a wrecker arrived at the scene and moved the auto.

Boyd's neck had been broken. Reports indicated that Loeffler was thrown clear, thereby escaping more than minor cuts and bruises.

He was, however, suffering with shock and was unable to be present at an inquest conducted Saturday morning by Cass County Coroner Joe Lintner. His testimony was given under oath in a private session with the coroner preceding the inquest.

Loeffler said that he was asleep and that Boyd was at the wheel of the Model A Ford, which belonged to Loeffler's father, Harry Loeffler, Car Careers On Curve.

The two students were riding east on a gravel road, returning from a hay rack ride and winner race at the home of Billy Mullen. They apparently attempted to make a turn into U. S. highway 67 and skidded in the loose rock. The car careened across the highway and landed in the east ditch against a telephone pole.

A verdict of accidental death was returned by the jurors. John Albert Sinclair, George and Clarence Hudson, Tom Stambaugh, John Watkins and George White.

The body was taken to the Massie Funeral Home.

Survivors include his parents, one brother, Clarence, and a sister, Hazel Mae, and three half-brothers, Clifford, Beauchamp of Canton, Junior Beauchamp, stationed in Germany with the U. S. Army, and William Beauchamp of Kansas.

Jerseyville Business Area Struck By Fire; Loss Near \$100,000

Jerseyville, Ill.—(Special)—Fire of undetermined origin starting at 10:10 o'clock Saturday morning, swept through several buildings on State street in the main business district of Jerseyville, causing a loss estimated at approximately \$100,000.

The flames were reported under control at noon after three fire departments had battled the fire for two hours.

The fire started on the second floor of the Gubser furniture and undertaking establishment on the east side of State street in the center of the block over the Jersey theater. It quickly spread to other buildings.

The flames licked their way into the Dumphy building, which housed the Vogue Shop, operated by Vern Nelson. The Vogue Shop is on the first floor, with apartments on the second floor. The upper story of this building was gutted by the flames.

To the north of the Gubser building is the department store of Allen Inman. Most of the merchandise in this establishment was carted out. The roof of this building was damaged but did not reach the lower and son, Carman.

Farrowed on March 15 in a litter of 14, the purebred Duroc was purchased by Roy Kalish of Boscov, Wis., for \$640.

The night sale held at the Potter farm two miles west of Jacksonville attracted many Duroc hog breeders. Successful buyers were from Illinois, Missouri, Kansas, Wisconsin, Michigan and Iowa.

The Potters enjoyed another highly successful sale. The boars brought an average of \$226.10; the gilts averaged \$167.50.

Two Kansas breeders, P. M. Gerkins and F. M. Peckman, both of Paola, bought the second best boar for \$400. Herdsmen from Michigan State College, East Lansing, Michigan, purchased a boar they desired for \$300.

A gilt, out of a litter of 11 also farrowed on March 15, brought the top price of \$350. She went to O. O. Mitchell of Kansas, Ill. The Peppard Farms of Lawson, Mo., brought the second rated gilt for \$275.

Col. Guy L. Pettit, veteran auctioneer from Bloomfield, Iowa, cried the sale. He relinquished his post later in the evening to Carman Potter, who recently graduated from a school for auctioneers. He sold the last 20 gilts.

Those at the sale inspected Red Velvet, the junior and grand champion boar of the 1948 Illinois state fair. He was acquired by the Potters at the close of judging there for the sum of \$400.

Fieldmen assisting with the sale were B. A. Evans and Chalmers Rinehart of Peoria, and Henry Peters of Jacksonville. Boyd Morgan and Sherman Vance of Hog Breeder magazine.
